

Announcement Ref. No.: SQASI/CMCS/1/26/011 IMPLEMENTATION OF
ELECTROMAGNETIC COMPATIBILITY (EMC) -IMMUNITY REQUIREMENTS UNDER MCMC
MTSFB TC T022:2026 AND APPLICABLE EVALUATION FEES.

Announcement date: 13/10/2026

Dear Valued Customers,

Following the publication of **MCMC MTSFB TC T022:2026 – Communications Equipment: Baseline Requirements**, please be informed that the Electromagnetic Compatibility (EMC) requirements under this Technical Code encompass both **emission and immunity requirements, with full implementation effective 5 November 2026.**

In line with the full implementation, an additional evaluation fee will be introduced for the assessment of EMC-Immunity requirements. The applicable fees and procedures for new and existing Type Approval applications are outlined below;

1. New Type Approval Applications

For the new applications subject to EMC immunity requirements, the following evaluation fees shall apply;

No	Evaluation Scope		Evaluation Fee (RM)
1.	EMC Emission		300 (Existing fee)
2.	EMC Immunity	Test Report from an External Laboratory	500 (Additional Fee)
		Test Report from a SIRIM Laboratory	No Additional fee

Please note that an additional evaluation fee of **RM500** applies when compliance with the immunity requirements is evaluated based on test reports issued by external laboratories. No additional immunity evaluation fee will be charged when compliance is evaluated based on test reports issued by a SIRIM laboratory.

2. Existing Type Approvals

Renewal of existing Type Approvals previously certified under the EMC scope and now subject to the immunity requirements of MCMC MTSFB TC T022:2026 will **no longer be permitted** through the normal renewal process.

Instead, applicants **shall submit a Parallel by Comparison (PBC) application** to demonstrate compliance with the applicable immunity requirements. As the emission requirements have already been evaluated under the existing Type Approval, only the immunity requirements will be evaluated under the PBC application. The immunity evaluation fees shall be the same as those specified in clause 1 above.

Please note that if the submitted EMC test report does not cover the applicable immunity requirements, the applicant shall submit the device for immunity testing in accordance with the applicable standards.

We appreciate your cooperation and understanding in ensuring compliance with the updated Technical Code requirements.

Should you require any further clarification on this matter, please do not hesitate to contact us via email at cmcstech@sirim.my or WhatsApp at +60 19-717 2627.
